**Subject:** 2008 Survey at Gold King Mine Portal and Dump

Hi Ken,

My name is Elliott Petri, I am working with the EPA at the Gold King Mine. We were told there may be a 2008 survey of the Mine Adit and surrounding area and that you could possibly provide that information to us. Please feel free to call or email me if this, or is not, the case. If you call 303-954-4719 it is the Communications trailer on site and you can reach me or a coast guard strike team member who can relay me a message. I will be returning to Denver later this weekend and my cell phone is another option 719-216-2754.

Thank you in advance for your assistance,

Elliott

**Subject:** 2008 topographical survey of the Gold King Mine portal and mine dump

Hello Steve, Chris

this data may be of interest to you. via San Juan County assessor

thanks

Jim

In 2008 Schaaf did a thorough topographic survey of the portal and mine dump that blew out, including surrounding adits on the Gold King.

Seems like EPA would want to access that to get a detailed picture of volume of dump material that went downstream; plus what the whole thing looked like prior.
